

EXCERPT FROM AD/O DIARY, Tuesday, 20 May 1958

CONFIDENTIAL

Attended the IAC meeting with Mr. Bagnall and noted with satisfaction that the IAC approved the discontinuance of the old NSCID 16 committee, chaired by [redacted] and approved the establishment of an IAC Exploitation Committee on Foreign Language Publications. The only question raised was by General Collins of the Joint Staff, who wanted to know why specific reference to captured documents had been omitted in the new DCID. I stated that we had no objection to this being left in if the IAC desired it. [redacted] both chimed in without being too sure of where it had been thrown out but being plenty sure that it had been discussed at the subcommittee meetings. [redacted] seemed to think that it was eliminated because it was taken care of in ASDIC Army Regulations. General Cabell proposed Mr. Bagnall as Chairman of the Exploitation Committee and no objections were raised. I asked Mr. Bagnall to try and have a meeting of the committee before he left on his trip on the 3rd of June, so that procedures could be established for [redacted] to follow in his absence. Mr. Bagnall said that he would write immediately to the agencies and departments concerned requesting them to nominate a member and, at the same time, name a date for the first meeting. I also asked Mr. Bagnall to be sure that copies of all correspondence between him and the members of his committee be forwarded to this office for information and possible forwarding to the DD/I.

cc: Chief, FDD
